AGENCY OVERVIEW

# ANTELOPE VALLEY- EAST KERN WATER AGENCY

**About AVEK:** Antelope Valley-East Kern Water Agency (AVEK) was created in 1959 with the mission to provide reliable supplies of high-quality water at a reasonable cost. AVEK is currently governed by a 7-member Board of Directors and is one of 16 participating agencies on the DCA Board of Directors.

**Service Area**  
2,400 square miles

**Population Served**  
350,000+

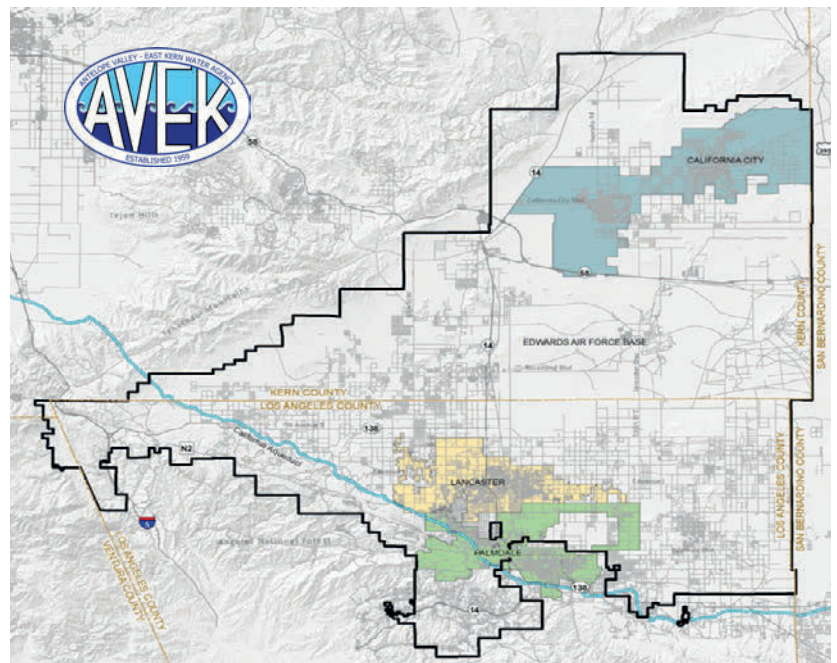

**Imported Water**  
100% from State Water Project

## WHY ARE THE STATE WATER PROJECT AND DELTA CONVEYANCE PROJECT IMPORTANT TO AVEK?

"AVEK has a long history of providing State Water Project water reliably to its customers and is committed to doing so well into the future. As our agency invests locally in projects to secure that reliable future, I am appreciative that DWR is also dedicated to modernizing and adapting the State Water Project infrastructure to ensure that the water AVEK and its customers depend upon will be there tomorrow and 100 years from now."

**Matt Knudson, General Manager,**  
**Antelope Valley-East Kern Water Agency**

### Modernizing California's Water Infrastructure

The Delta Conveyance Project (DCP) is a proposal to modernize water infrastructure in the Sacramento-San Joaquin Delta by creating an additional point of diversion along the Sacramento River coupled with conveyance facilities in the Delta. The DCP is intended to restore and protect the reliability of State Water Project (SWP) and to ensure California's largest supply of clean water is climate resilient.
