

# SAN LUIS OBISPO COUNTY FLOOD CONTROL AND WATER CONSERVATION DISTRICT

A map of California with its counties outlined in white. A red dot is placed in the Central Valley, specifically in the area of the Central Valley Project, to indicate the location of the study area. The map is overlaid on a background image of a river and hills.

**Imported Water (% from SWP):**  
100% from SWP

## WHY IS THE SWP AND DCP IMPORTANT TO YOUR AGENCY?

**California Department  
of Water Resources**

The Delta Conveyance Project (DCP) is a proposal to modernize water infrastructure in the Sacramento-San Joaquin Delta by creating an additional point of diversion along the Sacramento River coupled with conveyance facilities in the Delta. The DCP is intended to restore and protect the reliability of State Water Project (SWP) and to ensure California's largest supply of clean water is climate resilient.
